An eLearning Library for the Modern Workplace

The E-ZU eLearning Portal drives the enablement and adoption of new technology by empowering end-users with "self-service" training videos. There's a confidence that comes when learners are able to adapt quickly and improve their knowledge base. No matter what their current skill level, our platform provides the support and tools they need to succeed and thrive.

E-ZU Solutions Ltd is a trusted Microsoft Cloud Solution Provider (CSP) with over 14 years' experience.

Solution Benefits:

- ✔ **Boost Productivity**
Improve your team's skills and knowledge with the software they use everyday. Imagine providing them with an expert to work by their side.
- ✔ **Save Time and Money**
Learners save hours each month, which means lower support costs, higher productivity, and unbeatable ROI.
- ✔ **Adapt to New Tech Quickly**
Teams will quickly adapt to new technology faster and drive adoption like never before.
- ✔ **Short Task-based Videos**
To-the-point instructions help learners retain more from each lesson and make it easy to refresh their knowledge anytime.
- ✔ **Learn from Microsoft MVPs**
Watch with confidence knowing all lessons have been created by industry experts and Microsoft MVPs.
- ✔ **Learn in the Cloud**
With a cloud-based Learning Platform and mobile friendly design, users can improve their skills from anywhere.

5,000+
up-to-date training videos designed to increase staff skill level and increase workplace adoption of new technology.

62%
reduction in "how to" related help desk calls and requests on average, after deploying the E-ZU eLearning Portal.

Drive Enablement and Adoption of Microsoft 365

The E-ZU eLearning Portal was designed to provide a complete, simple-to-use online training solution that covers all aspects of Microsoft Office 365, Windows, and the entire Microsoft suite – driving adoption and increasing workplace productivity. **Courses include:**

- ✔ **Microsoft Teams training** (2h 40m, over 40 lessons)
+ similar courses for every app within Microsoft Office 365
- ✔ **Windows 10 Essentials** (2h 35m, over 40 lessons)
+ more courses on Windows 10, and even legacy versions.
- ✔ **End-User Security Awareness** (1h 11m, over 12 lessons)
+ many more security courses including Identity Theft, Social Engineering, Human Firewall Strengthening, and more.
- ✔ **Successfully: Work from Home** (26m, over 4 lessons)
