

Your Microsoft Office 365 Adoption Starts Now
It's time to finally make the most of Microsoft 365 with **FREE** hands-on Guidance, Tools, and Assistance from E-ZU's certified FastTrack Consultants.

A Proven Process to Drive the Enablement and Adoption of 365...

There's simply no catch, we're supported by Microsoft as their trusted partner, and a Cloud Solution Provider (CSP) with over 14 years' experience.

Even if you purchase your 365 licenses from another Microsoft partner, you do not have to switch providers or transfer any licenses to benefit from E-ZU's FastTrack Services. You can maximise what you're already paying for within Microsoft 365 at no cost to you.

56%

of all Microsoft 365 business licenses are being under-utilised in terms of their full value potential.

FREE

E-ZU FastTrack services are completely free of charge for any organisation using Microsoft Office 365 with 150+ seats.

Enable & Adopt 365 Applications and Workloads

We're Adoption Experts driven by Customer Obsession

Our **Vision** at E-ZU is simple; to help good organisations (and their employees) succeed. Our **Mission** is to help those organisations optimise budgets and improve ROI by increasing adoption of Microsoft 365.

We are customer obsessed, so everything we do is in the interest of our customers (above and beyond our bottom line), and our proven E-ZU FastTrack services are a perfect example of this.

E-ZU FastTrack Benefits:

Complimentary access to Microsoft 365 experts to help Optimise Budgets, Increase ROI, and Improve Adoption

A dedicated FastTrack Manager on hand as a "trusted advisor" to support you through your 365 adoption journey

Access to tangible tools, templates, and best practices only available from FastTrack

On-going technical support to accelerate your journey to the Modern Workplace

A flexible engagement model with up to 12 weekly, 1-hour guidance sessions

It's a FREE, proactive service that follows best practice methodologies.

“ Customer service and dedication does not get better than this. I would highly recommend the team at E-ZU to anyone looking for a solutions partner, they have the knowledge and service that leaves the competition standing. ”

Stuart T.
IT Manager

How does E-ZU FastTrack Work?

Our FastTrack services are designed to provide proactive, hands-on assistance and guidance to help you rollout, onboard, and drive adoption of specific applications and workloads (shown on the front of datasheet) within Microsoft 365 - based on the needs and objectives of your organisation.

STAGE 1 ENVISION

We'll help you define your vision by identifying and prioritising your adoption scenarios and building a tangible FastTrack Success Plan.

STAGE 2 ONBOARD

Our FastTrack experts will provide guidance on assessments, remediation tasks, core onboarding, and service onboarding.

STAGE 3 DRIVE VALUE

We'll help you utilise a set of tools, guides, and best practices to execute your Success Plan and drive usage and adoption for your end-users.

Why choose E-ZU FastTrack Services?

You'll have access to **40+ experienced & fully-certified Microsoft consultants** (made up of highly accredited architects, technical leads and delivery consultants) along **with a dedicated FastTrack Manager** who will be on hand to help you define and implement your Microsoft 365 adoption road map.
